USAGE

Instructions:

Daily HOT Circulation Cleaning :

1. Wash outside of clusters and attach to jettors
2. Rinse system well using 10-15 litres of lukewarm (approx. 40°C) water per unit
3. Prepare 0.5% wash solution using 500ml product to 100 litres hot water (approx. 80°C)
4. Circulate through the system for 7 minutes
5. Rinse system well using 10-15 litres per unit of cold water
6. Repeat after each milking

DX BULK TANK CLEANING

After milk has been collected, turn off the refrigeration system and connect the washer to the tank outlet. Use Product as per tank manufacturer's instruction or at 0.5% dilution (e.g. a 10,000 litres tank may require 100 litres of water plus 500ml product).
